POSTER MAKING CLUB

- The Department of Computer Science and Engineering of R.M.K. College of Engineering and Technology and the Poster Making Club organized a competition for second and third-year students on **February 18, 2024**. The competition's theme was **"The Role of Technology in Waste Management"** and students were required to present their posters on that day. A total of 24 posters were submitted by students from the second and third years, which were then presented.
- The competition was a showcase of innovative ideas and creative solutions proposed by the students regarding the integration of technology in waste management. The posters presented a wide range of concepts, from smart waste bins to advanced recycling technologies.
- Each poster reflected the students' understanding and vision for a cleaner and more sustainable future. The faculty members evaluated the posters based on criteria such as creativity, relevance to the theme, and clarity of presentation. After careful deliberation, the winners were selected for their outstanding contributions to the field of waste management through technology. Overall, the competition was a great success, showcasing the talent and dedication of the students in addressing real-world challenges through innovative technological solutions. It not only provided a platform for students to showcase their skills but also raised awareness about the importance of using technology to manage waste effectively. The Poster Making Club hopes to organize similar events in the future to continue promoting creativity and innovation among students.
