ABOUT THE INSTITUTION

R.M.K.College of Engineering and Technology was established in the year 2008 by Lakshmi Kanthammal Educational Trust. The College has been approved by All India Council for Technical Education (AICTE) New Delhi, affiliated to Anna University Chennai, and all the eligible programs accredited by NBA, the College is accredited by NAAC with 'A' Grade. The main objective of the trust is to foster quality technical and higher education. Research and training in various branches of Engineering and technology and simultaneously inculcating among the youth a sense of discipline which is vital to mould them into competent and talented engineers. 168 university ranks have been bagged till now. The college received the most coveted AICTE- CII award under platinum category for its overall infrastructure and partnership with leading industries.

ABOUT THE DEPARTMENT

The Department of Artificial Intelligence and Data Science was established in the academic year 2020-2021. The main objective of the department is to empower our students with latest technical knowledge and skills. The Department has excellent infrastructure and computing facilities that enable students to develop their practical skills. The Department has qualified and experienced faculty members with specialization in the areas of Data science, Cryptography, Theory of Computation, Artificial Intelligence and Cloud Computing.

VISION

To accomplish excellence in the field of Artificial Intelligence and Data Science through innovative research ideas to meet the societal needs.

MISSION

To develop industry-ready graduates through state-of- the art infrastructure facilities. To inculcate high personal and professional values that benefit the society. To promote interest in higher studies, research and entrepreneurship to meet global challenges.

CONFERENCE TOPICS

The organizing committee of the conference invites papers from research scholars, faculty and students of various institutes and professionals from industry and government organizations.

Topics of interest include, but not limit to :

- Artificial Intelligence
- Pattern Recognition and Machine Learning
- Deep Learning
- Natural Language Processing
- Computer Vision
- Ambiance Intelligence
- Data Visualization
- Big Data Analytics
- Data Analytics and Data Science
- Data Mining and Data warehousing
- Bioinformatics
- Image Analysis
- Cloud Computing
- Blockchain
- Soft Computing
- Optimization Techniques
- Human-Computer Interaction
- Expert Systems
- Geo-informative Systems
- 5G Technology
- Mobile Computing
- Artificial Neural Networks
- Wireless Sensor Networks
- Social & Smart Networks
- Cyber Security and data privacy
- Smart City Applications
- Innovative Information Security
- Web Intelligence
- Intelligent Knowledge Management
- Internet of Things
- Intelligent Software Engineering

ABOUT THE CONFERENCE

The aim of the conference is to promote quality research and create an atmosphere in the fields of Artificial Intelligence, Machine Learning, and Data Science. As the today's global economic environment is undergoing transformation so managing change is vital to ensure sustainable growth. Innovation and emerging opportunities has become one of the key strategic task. The conference aims to gather scholars from all over the nation to present the latest research outcomes and advances in relevant fields and provides an ideal environment for making new scientific collaborations. The Conference on Artificial Intelligence and Data Science will increase the opportunities for researchers to network with colleagues from across the nation in more focused sessions that will feature cutting-edge presentations, and interaction with industry leaders and experts.
