Hello Sir,

I'm Rajiv from 2010- 2014 batch. I hope you are doing good. I'm pleased to inform you that I have completed my master's program successfully with 88% and also have secured a job here in Canada. Without your continuous support, it would have been so difficult for me to come till this point. I have good reputation with the University of Victoria professors and can help candidates who are thinking of joining a master's program here at Uvic. Please feel free to share my email address to our college students who wish to do a master's program in Canada.

Thanks once again for the help and support. Let us stay in touch.

Hello Sir,

As discussed, just sharing my experiences and journey since I joined RMK.

RMKCET was a stepping stone for me in deciding the course of my career. It was a great experience in learning from knowledgeable professors who ensured the path in achieving the desired goal. My entire four years went through in a flash where I had lots of relishing memories, be it the subjects, food, friends or faculties. The willingness to help from faculties created an excellent atmosphere for learning and projects. This has helped me getting placed in one of the core companies, ECON Systems where I had lot of learning in a period of two months.

I found that I had a interest in management and hence enrolled for MBA in Bharathidasan Institute of Management, Trichy via CAT entrance. There, I pursued Finance as my major and got placed in Arcesium India Private Ltd (Spun off Entity of DE SHAW) at the end of second year.

Currently, I am working as a Financial Analyst in the aforementioned company in Hyderabad.

Regards,
Harihara Sudhan.
