Volume II Issue II 2018-19

THE FARMER

They said they would come again
the promises still remained
the wait was long and a pain.
Nothing took away the pain
of seeing him hanging
from the mango bough
he had marked out for his final rites.

Rightly done, the same bough
that sheltered him after he had spent
time in the fiery sun sweating
out with the spade and the seeds,
now wept barren, unable to fulfill the last
obligation it had made with its master
the seed sower, grower, the farmer
now dangling, his open eyes seeing
the emptiness where the greens
should have been?

His wife dry eyed, asking that the bough
be cut down, that the last rites
be performed by the three year old son
who played outside, posing like a child artiste
for the avalanche of photographers,
that he may find rest from his labors
while they began theirs.

Since no one came any more,
in spite of the wait,
all promises in vain,
she bore the spade,
dug the earth, started to sow
not as a widow, but as a farmer
who begins with ambition and hope.

IIIrd Year -MECH

SUCCESS FOR LIFE

Life full of dreams,
Mind full of thoughts,
Hand full of opportunities
We just require
Heart full of courage
To open the door of opportunities
And drive the thoughts of our mind,
To achieve the dreams of our life.

EDITORIAL COMMITTEE

Dr.M.Balasubramanian

Head of the Department

Mr. K. Karthick

Assistant Professor

T. Karthick

Second Year Mechanical

VISION

To empower the field of Mechanical Engineering to contribute to the development of industrial economy and welfare of humanity.

MISSION

- ◆ To achieve quality education by means of state-of-the-art infrastructure
- ◆ To establish industry-institute interaction to widen the scope for research and development
- ◆ To promote self employment through entrepreneurship and leadership qualities
- ◆ To develop team spirit and values for social well being

PROGRAMME EDUCATIONAL OBJECTIVES

PEO1: Graduates will excel in professional career and compete globally to pursue higher education in the field of Mechanical Engineering

PEO2: Graduates will demonstrate core competency in solving complex Mechanical Engineering problems

PEO3: Graduates will engage in continuous professional development through constantly evolving technology for the industrial needs

PEO4: Graduates will emerge as successful entrepreneurs through innovations upholding the ethical values of society
